

# JEREMIAH R. REYES

City of San Jose Del Monte, Bulacan | 09489715221 | jeremiahreyes.r01@gmail.com

## OBJECTIVE

Driven BSIT graduate and consistent Dean's Lister with hands-on experience in **Full Stack Web and Mobile Development**, passionate about creating **scalable, user-centered, and efficient solutions** that enhance accessibility and impact user experience.

## INTERNSHIP

**Baras The Business Incubator 486 hrs.**

### **Mothers Milk | Web-Based Health Information Platform**

React JS, Tailwind, Figma, JavaScript, NodeJS, Firebase with firestore, Google Maps Platform

- Built and led a 4-member team to develop and maintain a maternal health platform that enabled **150+ mothers** to schedule checkups, donate breast milk, and access verified health resources—**improving accessibility and reducing manual coordination by over 40%**.

## PROJECTS

### **KitaKo – Budget Management Web App**

React 18, Tailwind CSS, JavaScript

- Develop a **progressive web app (PWA)** with **three budgeting modes**, offline functionality, and automated PDF reports that **helps students, employees, and families track expenses with 90% accuracy**, featuring real-time summaries and validation-driven input handling for improved financial awareness and usability.

### **AIMARS - Asset and Inventory Management with Automated Reporting System**

React 18, Tailwind CSS, Node.js, Express.js, MongoDB with Mongoose, JWT Authentication

- AIMARS is a **comprehensive web-based solution** designed to **help local wholesale and retail stores boost inventory efficiency by 60%**, enabling them to **monitor stocks daily with automated reports** that deliver precision, ease, and real-time visibility across operations.

### **We Jeep a Modern Jeep and Passenger Tracking Mobile Application**

Android Studio (Java/XML), Firebase, Firestore, Node.js, OpenStreetMap API, Google Mobile Services (GMS), Google Location Services API, OAuth 2.0, Figma

- Designed and developed an Android mobile application that tracks modern jeepney and passenger locations in real time, with an admin panel for monitoring operations — reducing waiting times and improving commuter convenience.

## EDUCATION

Bachelor of Science in Information Technology (Web and Mobile Development) 2024

Bulacan State University | City of San Jose Del Monte, Bulacan

**Dean's Lister, 1.9 GWA**

## TECHNICAL SKILLS
